Dear Madam,

You have submitted an artistic project to the Nuit Blanche Selection Committee called *loving*. This project has caught the Committee's attention, and we will be happy to include this project within the satellite program of the next Nuit Blanche edition, in the night from the 6th to the 7th October 2018.

Loving is a video projection of two half-moons converging in a day sky in Rome on a soundtrack featuring urban sounds. Contemplative and poetic, this work will be presented on the dome of the Saint-Esprit church in the 12th district of Paris. The Nuit Blanche team thus strongly supports any financing research you might have to engage in to realize this project.

We look forward to your participation to Nuit Blanche.

Best regards,
